However, human activities have been the cause of irreversible harm to those ecosystems on multiple occasions, prompting a need to alleviate human pressure. RES projects enforce sustainability as they consist one of the most crucial tools for climate change mitigation, while tourism contributes to the local sustainable economy as a more anthropocentric activity which empowers circularity.</p> <p>Coordinator: Prof. Theocharis Tsoutsos / Rapporteur: Georgia Skiniti (ReSEL_TUC)</p> <p><b>Panel discussion (alphabetically):</b></p> <ul style="list-style-type: none"> <li>- George Alexakis, Vice Governor for European and International Affairs, Region of Crete</li> <li>- Dr. Leonidas Antoniou, Cyprus University of Technology</li> <li>- Dr. Heleni Hatziyianni, DG MARE, European Commission</li> <li>- Kyriakos Kotsoglou, Vice Governor for Tourism &amp; e-Government, Region of Crete</li> <li>- Prof. Stella Kyvelou, Prof., Panteion University of Social and Political Sciences, EAST MED focal point (MSP Assistance Mechanism)</li> <li>- Dimitris Mountakis, Chania Chamber of Commerce, and Industry</li> <li>- George Mylonakis, Mayor of Kissamos Municipality</li> </ul> <p><b>Topics to be discussed:</b></p> <ul style="list-style-type: none"> <li>• The use of coastal and marine areas can be combined in harmony with economic and tourism growth?</li> <li>• How can local strategies integrate into their plan the principles of sustainable tourism and energy?</li> <li>• Can the local communities empower integrated strategies?</li> <li>• Are insular and rural communities capable to meet the challenges of climate change?</li> <li>• How the local systems can become more resilient in economic, health and energy crises?</li> </ul>
